Musical Instrument Learning Survey and the 77th Hong Kong Schools Music Festival Arrangements

Dear Parents,

Our school always pays attention to the development of students' multiple intelligences. The Music Department is currently conducting surveys on students' learning of musical instruments, so the school can develop music learning activities. The information provided by you is for reference only.

In addition, in order to cultivate students' interest in music and enhance their musical talents, the school welcomes students to participate in the 77th Hong Kong School Music Festival competition. For details, please visit the website www.hksmsa.org.hk. Students need to pay attention to the following points when registering:

- All students participating in the musical instrument competition must themselves decide on the group and level in which to participate.
- Students must be responsible for purchasing music scores on their own, and the school will not order them.
- The registration fee for Solo / Duo / Group Classes that are not trained by the school team in this inter-school music festival shall be paid by the participating students.
- Competitions would be held in "Mixed Mode". Majority of the classes would return to "Live Competition Mode (LCM)", with only some elementary solo classes to be held in "Video Submission Mode (VSM)". If the competition is conducted in video mode, the participating students need to record their performance videos themselves.
- After the teacher receives indications that students want to participate, he/ she will contact the relevant students with the registration matters.

I hope that through this competition, all students can learn to express their hearts and minds through music and at the same time experience the joy of playing music. Please fill in the following reply slip and return it to the class teacher before 25th September. For enquiries, please feel free to contact Miss Chan Ho Yi.

Mr. Lo Wan Kai (Supervisor)
Ms. Kwok Yuen Ki (Principal)
